

INOVIA PODS

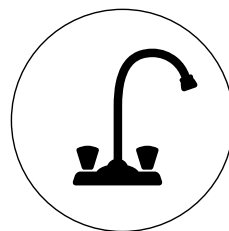

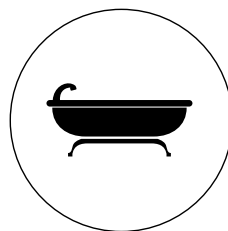

PRE-FABRICATED MODULAR BATHROOMS

Regardless of size, complexity or image concerns, InoviaPods can be customized to fit your unique needs.

InoviaPods are a viable solution to residential, industrial, institutional, or commercial developments. Such as affordable housing, hospitals, school accommodations and military facilities. You select the design features, finishes, and fixtures; and we accommodate your needs.

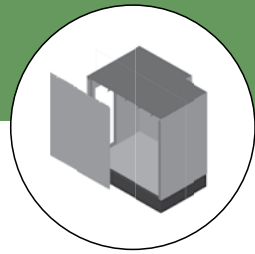

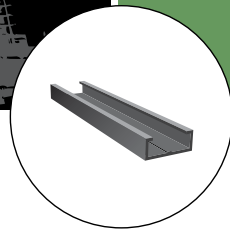

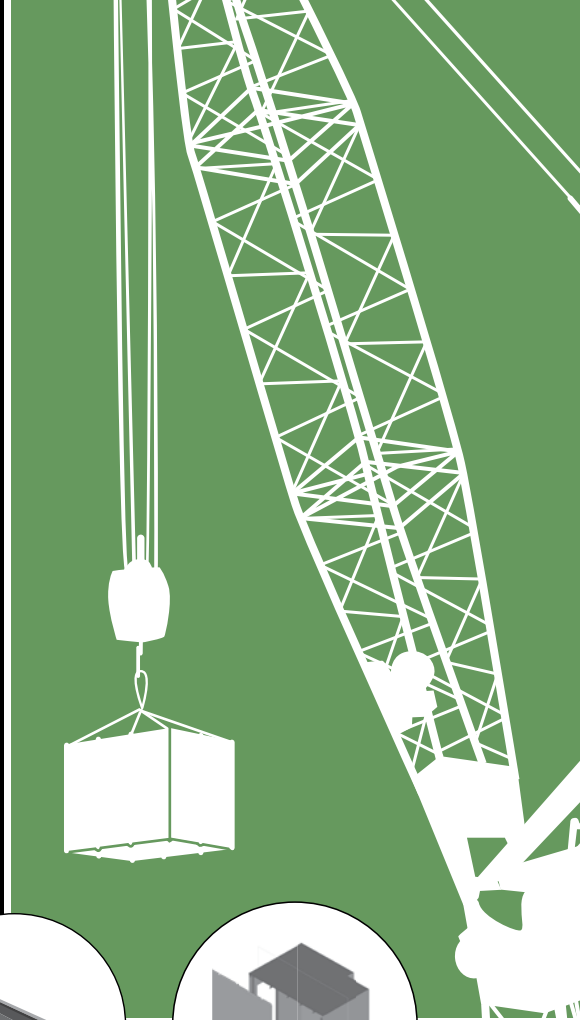

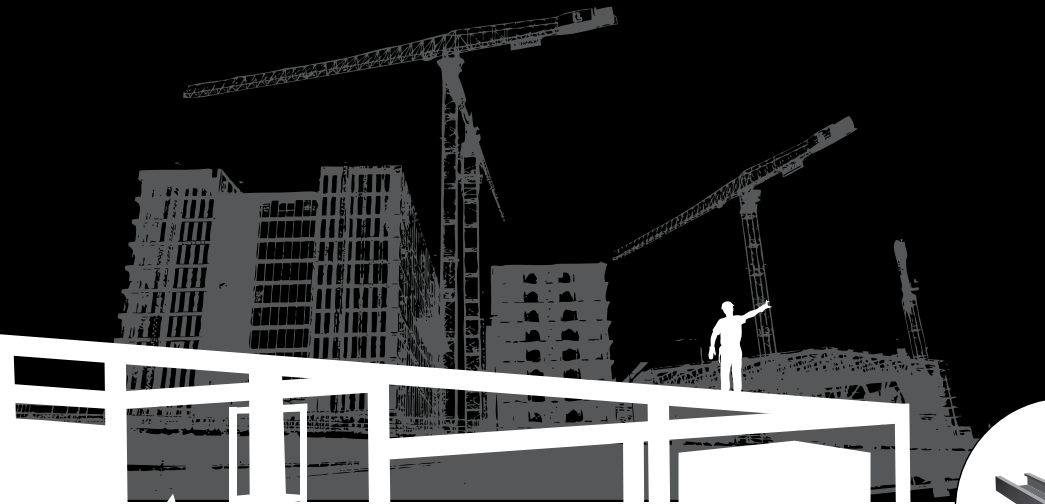

If you want to save on your overall project cost, contact us at **888-596-NOVI** or visit **WWW.INOVIAPODS.COM**

PRE-FABRICATED MODULAR BATHROOMS

InoviaPods are manufactured using environmentally-friendly materials such as light-gauge steel framing and magnesium-oxide board.

ADVANTAGES OF LIGHT-GAUGE STEEL

- Strong and flexible
- Climatically adaptable
- Pest and mold resistant
- 100% Recyclable
- Fewer callbacks due to nail pops and shrinkage cracks

- Resistant to moisture expansion or contraction
- Stable supply of steel means little fluctuation in price
- Highest strength-to-weight ratios of any construction material
- Can weigh only one-third as much as traditional construction produces, reducing seismic loads

ADVANTAGES OF MAGNESIUM OXIDE BOARD

- Fire-resistant
- Waterproof
- Mold, fungus and bug free
- Impact-resistant

- Silica and asbestos free
- Hard non-absorbent surface (no paper)
- Can be used in the place of traditional drywall or cement boards. No special tools required.

The use of **GREEN** materials and systems can help you achieve LEED Certification.

Eco-Friendly Environment

InoviaPods guarantee recycle amount goals by using light-gauge steel and magnesium-oxide board. The use of these structural elements and using prefabrication construction methods will help in achieving LEED certification.

RECENT PROJECT

NOVI Industries, Inc. is a ground breaker in the use of light-gauge steel structural material in Algeria, North Africa. Additionally, savings were realized from reduced material storage logistics, less waste, reduced general supervision, and minimal re-work. Based on extensive engineering studies and negotiations at various government levels, NOVI Industries, Inc. has secured contracts in Algeria, North Africa where it manufactures light-gauge steel modular wall panels and manages the construction of over 8 million square feet of commercial, institutional, and residential property. NOVI Industries, Inc. has made an impact overseas in the use of light-gauge modular construction methods for over a decade.

PRE-FABRICATED MODULAR BATHROOMS

SAVE LABOR COSTS

AVOID CONSTRUCTION DELAYS

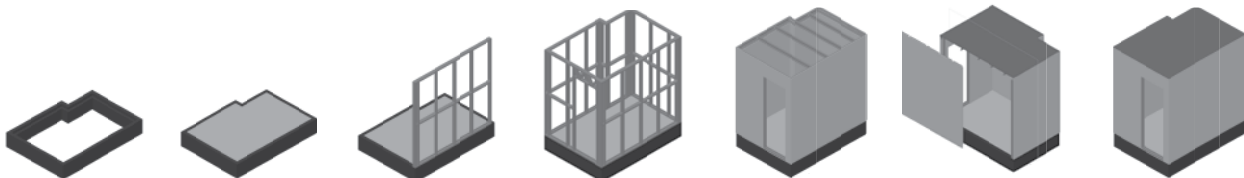

INCREASE QUALITY CONTROL

GO GREEN

InoviaPods are manufactured off-site with efficient quality control procedures, strict building code requirements, highly-skilled workers, and the highest health and safety standards. They will support a more productive, higher-quality, construction process which can eliminate the need for multiple trade quality control and lower bulk material costs.
